The FIS Freestyle Ski World Cup competitions will comply with the rules and regulations for Freestyle Ski as published by the International Ski Federation.

1.3 Controversial Matters

For all controversial matters during a competition which cannot be resolved by the application of the present Rules, the Jury will call those members of the FIS Freestyle Ski Committee present at the competition together with the Race Director. They will make a temporary decision by a simple majority of votes. This decision, to be valid, must be approved by the FIS Freestyle Ski Committee at its next meeting. If such a meeting is not possible, the matter must be referred directly to the FIS Freestyle Ski Coordinating Group.

1.6 Automatic Cancellation

In case that there is not enough snow on the run(s) or sites selected for the competition, the Organiser must cancel the competition(s). 8.1.3 Assignment of Bibs for Ski Cross

Bibs are assigned at the beginning of the competition, to the entered competitors, based on the present Ski Cross FIS World Cup standings. At the beginning of the season, this is based on last season’s standings.

The competitors keep their assigned bibs, for all inspection and training sessions and until the end of the Qualification / Time Trial.

8.2 Ski Cross Draw

The best 16 Ski Cross competitors present will be drawn according to their highest ranking on the WC points list or FIS points list (published 6 times a year). If the competitors are tied, the higher points in the second category will decide their position. If they are still tied their position will be decided by a draw.

First group will be randomly drawn (computer). Competitors with points will be ranked according to their higher points on the World Cup points list or the FIS points list.

The non-ranked competitors are assigned bibs based upon a random draw.

8.3 Start Order Draw

Each event shall have a separate start order. The start order for each event is a separate draw. This draw is used for the Qualification event. The Finals generally consist of:

Type of Competition	Moguls L/M	Aerials L/M	Ski Cross L/M	Halfpipe L/M
FIS World Cup	12-16/12-16	10/10	16 / 32	10 / 10
FIS World Cup Final	12-16/12-16	10/10	16 / 32	6 / 12

9. Competition Procedures

In all International FIS authorized competitions, in all events, there will generally be:

- A Qualification Phase (or all competitors divided into two groups based on FIS points World Cup Standings, World Cup Starting list (WCSL) or a combination of the above);

- A Final Phase.

In the Finals, the qualifying competitors will start in reverse order or set into groups, based on their placing from the Qualification results. Results from the Qualifications do not carry over into results from the Finals.

- The Jury may alter this format to be only Finals in the following circumstances:
 - the number of competitors is equal to or less than the size of the normal Finals field for that event.
 - Inclement weather or snow conditions.
 - Any other adverse conditions which may require a shortened program.
- In the event of the interruption of a competition, the competition should be resumed when conditions warrant. The results completed before the interruption will remain valid if it is possible to complete the event or phase on the same day. Otherwise, the results prior to the interruption will be cancelled except if the top 30 competitors (Moguls, Aerials and Halfpipe) and 35 competitors (Ski Cross) in the Qualifications have completed their runs. In that case, the Finals may be run as scheduled or postponed or re-run, but must be completed on the same competition site. If the Finals cannot be completed, the results of the Qualifications phase will be final.
- If an organiser wishes to run more than one event in one day, the competition program must be approved by the FIS.

9.1. Moguls / Dual Moguls

In the Mogul event, all competitors will make one run down the course. The qualified ladies and men as specified in ICR 3043.7.1 and WC Rules 8.3 shall move to the Finals.

For all formats, the start list for the first round shall be determined by a random draw. In all formats, at least one round must be completed for the results of the competition to be valid.

The start order for the second round may be run in reverse order from the results of the first round.

If there are two rounds that have been completed in a competition, then the score of the first jump shall be added to the score of the second jump for a combined score made of two different jumps.

In the case that a round cannot be completed, then the results from the most recent completed round shall be valid.

9.3 Ski Cross

In the FIS Freestyle Ski World Cup Ski Cross, all competition formats, (see ICR 3060.2.4) must be approved by the FIS.
